

## What is Permanent Welded Jewellery?

Permanent jewellery is a custom-fit chain that is welded directly onto your wrist, ankle, neck or finger- without a clasp - creating a seamless and stylish piece of jewellery you'll never have to take off. It's a perfect way to celebrate a special moment, bond with someone special, or simply enjoy a timeless look. The process is quick, safe, and completely painless.

### Please Note:

For individuals who prefer or require a removable option, we can add a clasp instead. We are unable to weld jewellery on anyone with a pacemaker due to safety concerns with the welding equipment.

## How it works...

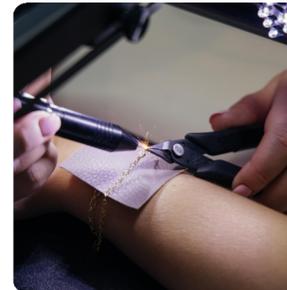

**Step One - Pick your chain**

**Step Two - Personalise**

**Step Three - Sizing**

**Step Four - Welding**
